

## WM'S Magical Game Factory

Watermelon's Magical Game Factory is a **unique approach** to crowd driven development. The Factory **allows fans to invest** in various proposed projects **and have a real impact on the games development** throughout the project's lifecycle.

Players can purchase GEMS and apply them to any project they wish. The more GEMS they've invested in a project, the more weight is given to their votes and opinions when consulted. Once the project is completed, investors will not only get a copy of the game but a host of other goodies and exclusive bonuses.
